

PUBLIC OPEN HOUSE

Proposed Wind Energy Project

Algonquin Power Co. is holding the second open house regarding Algonquin's 200 megawatt (MW) proposed wind power facility near Avonlea, SK. This open house will provide preliminary project information regarding project planning and development activities, as well as a chance for the public to meet the project team. This project is being submitted into SaskPower's RFP initiative.

Please join Algonquin to learn more about the progress of the wind facility development.

PLACE: Avonlea Community Centre

315 Main Street

Avonlea, SK S0H 0C0

DATE: February 15th, 2018

TIME: 4 to 8 p.m.
